

Advance the practice of Enterprise Risk Management (ERM) in the federal government.

Be recognized as a credible authority and leader in promoting the effective application of enterprise risk management in the public sector.

- * Integrity * Professionalism
- * Teamwork * Engagement

Member Focus	Promote ERM education	Sponsor professional development	Profession Focus	Advance the federal government ERM profession	Influence federal government ERM practices
	Promote and encourage continuing education on ERM and its application in the federal government directly and through alliances and partnerships with other organizations.	Provide professional development opportunities by sponsoring and co-sponsoring activities and events for AFERM members.		Establish a community of government ERM professionals and other experts that facilitates informal mentoring and exchange of ideas regarding federal ERM implementation and maturation.	Support innovation, research and thought leadership that influences and shapes the application of ERM practices in federal government.
